PROJECTS

[Airbnb: Intregrated with AI ↗](#)
Dec 2023 - May 2024
Built a functional AI clone with dynamic conversation management and rich media features. Integrated Kafka and MongoDB (Prisma ORM) for handling 50k concurrent users with high performance. Optimized system scalability and performance using React Redux Toolkit, multiple hooks (useEffect, useRef, useState), and custom hooks for real-time conversation handling. Designed and implemented seamless user interaction flows, allowing for efficient message exchange and media handling.

[Blockto | : \(Group Project\) | Crypto Listing ↗](#)
Aug 2023 - Feb 2024
Built a cryptocurrency simulation platform with real-time trading, user authentication, and dynamic charts. Created responsive UI/UX designs optimized for multiple screen sizes and devices. Integrated RESTful APIs to fetch and display dynamic data, enhancing app functionality and user experience.

EXTRA CURRICULAR ACTIVITIES

- I have actively participated in extracurricular activities, showcasing both leadership and teamwork skills. I have served as the lead player for Kho-Kho and Kabaddi teams, where I demonstrated strategic thinking and resilience, contributing to the success of my teams in various tournaments. Additionally, I have taken on the role of an anchor in events, where I honed my communication and public speaking skills, ensuring engaging and memorable experiences for the audience.

ADDITIONAL DETAILS

- I have earned certifications in frontend development from Udemy and Accenture, which have deepened my knowledge and skills in creating dynamic, responsive web applications.
