- Reactive programming (RxDart), Git version control, Dependency Injection, Figma, OOP's Concepts, Problem Solving, SOLID Principles, Unit Testing.

WORK EXPERIENCE

Mypcot Infotech: *Software Developer*

11/2023 - Current

- Contributed significantly to **8+** diverse Flutter projects spanning various domains, including **Logistics & Order Management Systems, Ride-sharing with Google Maps integration, Medical health solutions, eBook readers, audio streaming applications** and **Fantasy quiz platforms**.
- Successfully integrated **Jenkins, Firebase App Distribution**, and **SonarQube** to streamline the **Continues Integration** process.
- Played a pivotal role in recent projects, contributing **70-80%** to the development of core modules while implementing **Solid principles** and **Clean Architecture**.
- Collaborated closely with **UI/UX designers** and **backend teams** to ensure seamless API integration and functionality.
- Worked on **localization** to support multiple languages, enhancing user accessibility and global reach.

Maxgen Technologies: *Android Developer Intern*

05/2020 - 06/2020

- Developed and maintained Android applications, focusing on **UI implementation, API integration**, and ensuring smooth functionality.
- Collaborated with senior developers to optimize app performance, debug issues and upgraded company's legacy codebase.

PROJECTS

Shreeji Food Order Management System

- Developed key modules for order processing, including dispatch workflows, delivery assignments, and returns management, enhancing operational efficiency.
- Implemented **Clean Architecture with BLoC**, ensuring a scalable, maintainable, and seamless system.

Yatharth Geeta Wisdom App

- Designed and developed an intuitive explore section for users to browse ebooks and audio chapters effortlessly, along with push notification integration to keep users updated.
- Integrated dynamic theming to enhance the app's visual appeal and user engagement.
